

## **Verus Come Out on Top at the Sligo Business Awards 2019**

Verus Metrology Partners have been recognised for their entrepreneurialism, innovation and diversity during the 7<sup>th</sup> annual Sligo Business Awards. Held recently in the Radisson Blu Hotel in Sligo, the awards ceremony has firmly established itself as one of Ireland's most respected business events.

Applauding industry thought-leadership, it acknowledges advanced developments, product innovations, sustainability and overall business accomplishments from start-up level through to multi-national blue-chip leaders.

The social event serves as a chance to reward companies county-wide, recognising their commitment to the community and local economy in their respective fields.

### **Best Technology Company of the Year Winners**

Over 430 local business entrepreneurs were in attendance to greet many special guests including Cathaoirleach of Sligo County Council, Cllr Tom MacSharry and TD's Eamon Scanlon, Tony McLoughlin and Martin Kenny. Guest of honour, Terry Prone of the Communication Clinic, gave speech that captivated the audience on the night also.

Verus COO Michael Nugent received the award on behalf of Verus Metrology Partners for Best Technology Company of the Year at the 2019 ceremony. Recognising high-sales and employ growth throughout 2019 along with having a positive effect on the areas technology-industry, Verus were chosen for their significant patent, R&D and IP activity along with our contribution to industry activities such as standards setting, advocacy and education

Innovation leads activity at Verus Metrology. Their toolmaking background grants the advantage of understanding clients current and future needs. Verus have recently advanced their current offering of Manual Metrology Fixtures, creating an innovative solution. As a result, they have incorporated an Auto-Rotational element into their bespoke fixtures, leading the way for the future of metrology.

Working in partnership with clients to learn about their metrology challenges, bespoke fit-for-purpose solutions are built, designed to fully exceed expectations. Functioning as an external department, flexible, open and honest working-relationships are encouraged, honouring their commitment to service excellence.

### **Verus Are Proud of Their Roots**

A proud member of the AMTC, Verus look to promote and position Sligo and the North West of Ireland as a global center of excellence, internationally recognized for its expertise and competence in the design and manufacturing of medical devices.

Speaking with Michael Nugent, COO of Verus Metrology Partners, He says; “One of our main priorities at Verus is to continue increasing the availability of future, long-term employment within the engineering sector, so that we can remain capable of skilled labour back to the area.” He continues, “Our aim is to increase the number of job vacancies here at Verus across many sectors such as engineering, manufacturing, metrology and marketing. We also continue with our strive of bridging the gender gap that currently exists within many of these industries at present.”

## **IMR Manufacturing and Supply Chain Awards 2020**

Verus are honoured to be nominated for Engineering Manufacturing Team of the Year at Manufacturing and Supply Chain Awards 2020. Their Automated Fixturing Solutions have pioneered an ever-evolving business model, responding to both the current and future needs of clients.

Verus’ manufactures bring with them a wealth of experience and expertise. Therefore, as machinists, they apply their expert skills and knowledge to produce the most accurate and robust of fixtures. In other words, they pride themselves on the superiority of their bespoke metrology fixtures, in which their engineers have mastered the art of creating a modular fixture immersed in quality, precision and functionality.

Verus Metrology Partners anticipate another exciting year ahead and looking forward to what’s in store.
