

Press Release

ZEISS introduces the Metrology Digital Hub

Connect to productivity also @ home with e-learnings, webinars, videos and articles, all in one place.

In response to the current COVID-19 situation ZEISS have created a new one-stop digital hub, so that customers can find everything they need from the ZEISS Industrial Quality world, also from home.

CEO Dr. Jochen Peter says "The safety of our employees, customers and business partners is a very important priority for us, so we have adapted our operations and are mostly working from home offices / remotely at the moment. Nevertheless, we are confident that we will get through these unprecedented times, and we want to let our customers know that we continue to offer them our support."

The Metrology Digital Hub consists of a multitude of useful information, from ZEISS's range of free and paid software options, e-Learning and webinars where customers can improve their skills on tool corrections, process optimization and other topics, to helpful contact information. Customers can also always access the ZEISS Metrology Portal for any of their service, support and training needs. There is also access to a Digital Magazine where a collation of a range of articles covering different industries and applications can be found.

Explore the new digital hub here: www.zeiss.ly/digital-hub

The world has never needed digital platforms so much to help connect people during this unprecedented time. The ZEISS Metrology community is connecting people across the globe with social media using the #measuringhero on LinkedIn, Instagram, Facebook and YouTube.

ZEISS will also be releasing more information on upcoming e-Learning opportunities, as well as news on their latest product innovations, including invitations to digital events and new virtual means to learn about what ZEISS solutions can offer will be posted regularly across the digital platforms.

Keep up to date and explore the new digital hub here: www.zeiss.ly/digital-hub

About ZEISS

ZEISS is an internationally leading technology enterprise operating in the fields of optics and optoelectronics. In the previous fiscal year, the ZEISS Group generated annual revenue totaling more than 6.4 billion euros in its four segments Semiconductor Manufacturing Technology, Industrial Quality & Research, Medical Technology and Consumer Markets (status: 30 September 2019).

For its customers, ZEISS develops, produces and distributes highly innovative solutions for industrial metrology and quality assurance, microscopy solutions for the life sciences and materials research, and medical technology solutions for diagnostics and treatment in ophthalmology and microsurgery. The name ZEISS is also synonymous with the world's leading lithography optics, which are used by the chip industry to manufacture semiconductor components. There is global demand for trendsetting ZEISS brand products such as eyeglass lenses, camera lenses and binoculars.

With a portfolio aligned with future growth areas like digitalization, healthcare and Smart Production and a strong brand, ZEISS is shaping the future of technology and constantly advancing the world of optics and related fields with its solutions. The company's significant, sustainable investments in research and development lay the foundation for the success and continued expansion of ZEISS' technology and market leadership.

With over 31,000 employees, ZEISS is active globally in almost 50 countries with around 60 sales and service companies, 30 production sites and 25 development sites. Founded in 1846 in Jena, the company is headquartered in Oberkochen, Germany. The Carl Zeiss Foundation, one of the largest foundations in Germany committed to the promotion of science, is the sole owner of the holding company, Carl Zeiss AG.

UCL – London's Global University

UCL is a diverse community with the freedom to challenge and think differently.

Our community of more than 41,500 students from 150 countries and over 12,500 staff pursues academic excellence, breaks boundaries and makes a positive impact on real world problems.

We are consistently ranked among the top 10 universities in the world and are one of only a handful of institutions rated as having the strongest academic reputation and the broadest research impact.

We have a progressive and integrated approach to our teaching and research – championing innovation, creativity and cross-disciplinary working. We teach our students how to think, not what to think, and see them as partners, collaborators and contributors.

For almost 200 years, we are proud to have opened higher education to students from a wide range of backgrounds and to change the way we create and share knowledge.

We were the first in England to welcome women to university education and that courageous attitude and disruptive spirit is still alive today. We are UCL.
