Bowers Group distributor

We're excited to announce Innovative Measurement Technology Ltd have teamed up with **Bowers Group** as a full distributor.

Bowers need no introduction, as a leading supplier of metrology instruments they have developed into a respected company striving for excellence much like ourselves.

With the range consisting of Bore Gauging instruments such as the impressive pistol grip sets, Calipers, Micrometres, Height gauges, Hardness testers through to advanced software from brands including **Baty International, Moore & Wright, CV Instruments, Sylvac, Trimos** and more. Adding products from Bowers Group to our existing line up provides customers with a truly complete range of metrology instruments.

We will also take part in the regular Bowers offers which give customers excellent discounts on new products.

More updates to follow....
