Ceratizit Group highlights sector specialisms at Farnborough

Ceratizit Group is exhibiting at Farnborough International Airshow (HALL 1 stand 112) where it will be showing selections of its exceptional hard material products that are employed in cutting tool and wear protection applications. The Ceratizit Group encompasses for key brands: Cutting Solutions by CERATIZIT, Klenk, Komet and WNT, who together are at the forefront of cutting tool technology. The Group has a strong industry sector focus with aerospace being an area in which it excels

The Ceratizit Group operates globally, with its 9000 employees working across 34 manufacturing plants and 70 sales offices. This depth allows it to combine knowledge and deliver optimum cutting tool solutions tailored to specific industries and applications. The focus at Farnborough will be on the latest cutting tool developments for the aerospace sector, these include cutters such as the MaxiMill HFC-TUR milling system, which is allowing much higher productivity in the machining of turbine blades. Similarly, the new 3D Finish solid carbide end mills (in conjunction with Open Mind's hyperMILL MAXX Machining CAD CAM software) are delivering significant cycle time savings on airframe components of up to 90 per cent, at the same time ensuring improved surface quality.

“The Ceratizit Group combines to bring the best in the world of cutting tool and wear products to specific sectors of manufacturing industry. Farnborough International Airshow is the perfect opportunity for the Group to highlight the depth of knowledge it has in the aerospace sector, where we can work together

with customers to ensure higher productivity and reduced manufacturing costs,” says Tony Pennington Managing Director CERATIZIT UK & Ireland Ltd.

CERATIZIT – passion and pioneering spirit for carbides

For over 95 years, CERATIZIT has been a pioneer developing exceptional hard material products for cutting tools and wear protection. The privately owned company, based in Mamer, Luxembourg, develops and manufactures highly specialised carbide cutting tools, inserts and rods made of hard materials as well as wear parts. The CERATIZIT Group is the market leader in several wear part application areas, and successfully develops new types of carbide, cermet and ceramic grades which are used for instance in the wood and stone working industry.

With over 9,000 employees at 34 production sites and a sales network of over 70 branch offices, CERATIZIT is a global player in the carbide industry. As a leader in materials technology, CERATIZIT continuously invests in research and development and holds over 1,000 patents. Innovative carbide solutions from CERATIZIT are used in mechanical engineering and tool construction and many other industries including the automotive, aerospace, oil and medical sectors.

The internationally active CERATIZIT Group unites the four competence brands Cutting Solutions by CERATIZIT, Hard Material Solutions by CERATIZIT, Tool Solutions by CERATIZIT and Toolmaker Solutions by CERATIZIT. The carbide expert also includes the subsidiaries WNT and CB-CERATIZIT, as well as the tool manufacturers Günther Wirth, PROMAX Tools, Klenk, Cobra Carbide India, Becker Diamantwerkzeuge, Best Carbide Cutting Tools and KOMET.

Cutting Solutions by CERATIZIT - your creative partner for competent dialogue

Cutting Solutions by CERATIZIT is the competence brand of choice for innovative tooling solutions in the cutting tools sector. Under this name the CERATIZIT group offers a complete range of premium standard products such as inserts and solid carbide tools. As a creative partner CERATIZIT also works closely together with its customers to develop individual or industry-specific cutting solutions, for example in the automotive industry and in the energy and transport sectors. With this aim in view, the CERATIZIT group manages and controls the entire process chain of carbide production, from the raw material to the finished product. When marketing the brand, the company relies on a worldwide network of highly competent commercial partners.
