

Black Country Local Enterprise Partnership and Partners Loan Funding Factsheet August 2015

This Loan funding factsheet has been developed by the **Black Country Local Enterprise Partnership (LEP) Access to Finance Group (Chaired by Paul Brown)** in response to a number of requests from companies and intermediaries. This document provides an overview of available funding streams and includes links for further information for each of the funding streams currently available, or due to be launched soon. This complements the Business Finance Finder available at <http://www.betterbusinessfinance.co.uk/> which includes more mainstream finance available through banks and larger lenders. This factsheet is updated as new funding streams are announced/confirmed. If you would like more information about any of the schemes highlighted in this factsheet please contact the Growth Hub using the details below.

Black Country Investment Loan Fund - The Fund has been established to provide loan funding to landowners to fund the cost of site remediation and servicing of sites for employment uses. The proposed loan arrangements provide for repayment of loans (and associated interest) upon site development or disposal with a longstop date of repayment of 10 years. Loan funding may meet 100% of the costs of remediation and servicing works with the loan secured against the remediated site value. The Black Country Investment Fund will not provide a designated aid to beneficiaries and accordingly would not impact on the eligibility of parties to seek additional public sector funding to support the delivery of built development www.blackcountrydevelopmentfunding.co.uk
