Jig & Fixture UKAS Certification at Your Facility

Avon Dynamic's technical offering includes UKAS BS EN ISO 17025 accreditation to certify Jigs and Fixtures on-site at the customer's premises using Portable Arm Co-ordinate Measuring Machines. Where your Jig or Fixture is too large to transport or of a sensitive nature, our experienced technical engineers will visit you onsite to perform the UKAS BS EN ISO 17025 certified measurements.

Complex and large components or assemblies are all common place measurement jobs for our qualified experienced engineers.
