

News from Avon-Dynamic – for immediate release

15th November 2019

New website launch for Avon-Dynamic

Avon-Dynamic, who provide calibration and dimensional measurement services to a wide range of sectors including aerospace, defence, marine and medical, have launched a new website at a busy time for the Bristol-based business.

The new website details their extensive calibration and testing services which include their new UKAS Accredited Calibration services recently launched with the Jig & Fixture On-Site Certification, On-Site Component Measurement using an Articulated Arm and Certification for Articulated Arms.

Talking about the new site, Managing Director Suzy Brain explained... “Our new website also showcases our recent re-brand and comes at an exciting time for the business, following our recent move to a brand new state of the art building in Bristol. As well as more detail on our services, customers can access their equipment asset listing and certificates direct from the site, via their customer portal.”

You can take a look at the new site here: <https://www.avon-dynamic.co.uk/>

More about Avon-Dynamic

Since 1986 we have delivered our services through our state-of-the-art Bristol facility. We are a BS EN ISO/IEC 17025 UKAS-accredited calibration laboratory and testing laboratory, within a BS EN ISO/IEC 9001 Quality Management Systems Accreditation environment.
